Protocols and Guidelines to be followed by the students while taking the test

1 . Use an Updated Browser:

Students must use the latest version of Google Chrome for taking the test.

2 . Clear Browser Data:

Before starting the test, clear cookies and cache to avoid technical issues.

3 . Use a Desktop or Laptop:

Mobile phones shouldn't be used for taking the assessment. Take assessment only using the Desktop/laptop.

4 . Coding problems should not be attempted from a mobile phone.

Use a desktop or laptop for a better experience.

5 . No Copying of Answers:

- Students must not attempt to copy answers.
- Questions are shuffled for each student.

6 . Copy-pasting is strictly prohibited.

7 . Internet Speed Requirement:

A minimum upload and download speed of 2 Mbps is required to attempt the test.

8 . No Switching Tabs or Googling Answers:

- Switching tabs or searching for answers online will lead to automatic submission of the test.
- Ensure your laptop is fully charged.

9 . Receiving a notification to plug in the laptop will be considered as a tab switch, leading to test closure.

10 .Disable Notifications & Prevent Sleep Mode:

- Turn off all notifications before starting the test, as they will be considered tab switches.
- Ensure that the laptop does not enter sleep mode, as this will cause the test to automatically close.

11 . Stable Internet & Power Supply:

- Take the test from a location with a stable internet connection and uninterrupted power supply.
- If the internet or power is disrupted, the test will be automatically submitted.

12 . Set Time Zone to Indian Time (IST):

Students from different time zones must set their laptops to Indian Standard Time (UTC+05:30 - Chennai, Kolkata, Mumbai, New Delhi) before starting the test.

13 . No Function Keys Allowed:

Students must not use function keys (F1-F12) while taking the assessment.

14 . Disable VPN Before the Test:

If students are using any VPN, they must disable it before starting the test.

15 . Antivirus Issues:

- Some antivirus software may block access to the test.
- If you face login issues, disable the antivirus and try again.
