

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY, TIRUCHIRAPPALLI

Department of Electronics and Communication Engineering

Visionary guidelines for our students

27.12.2023

Dear Students,

Wish you are having a nice time. As per the directions. I am hereby to inform you that we will follow a professional way of dressing ourselves up from the upcoming even semester 2023 – 24. Let us come in formal dress code where Jeans and T – shirts are strictly prohibited for both genders. Girls are requested to come only in Salwars / Churidhars with dupattas pinned on both ends. All are requested to wear shoes and come to our university. Boys shall come with their shirts tucked in and also have a clean-shaven face with professionally groomed hairstyle. *These initiatives are sure to have a positive impact during our placement drive.*

A fresh New Year is round the corner. On that note, the department has planned to have the following targets in mind for the well-being of the students and also for the growth of the department.

“A small step in the right direction will lead us to better results”

In this even semester of 2023 – 24, the students shall have the following targets in mind.

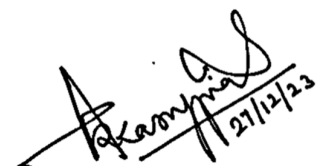

1. **One NPTEL** course has to be completed compulsory. (Where separate weightage is proposed to be allotted in internal marks).
2. **One Digital NASSCOM** course has to be completed before the Pongal Holidays.
3. **One internship** in reputed companies
4. All students shall aim for **at least one external participation and win awards and prizes** (in Hackathons, Paper presentation contest, Project presentation contest, etc.,)
5. Active involvement **in club activities** (both in organizing as well as participating in events).
6. We will **maintain a very healthy environment in the department** by maintaining the utmost discipline and decorum
7. We will take **CLAs very seriously** and prepare with dedication right from the start of the semester as retests will not be conducted and the marks will be updated in the portal then and there. *[CGPA that you obtain will play a crucial role in our placement]*
8. **Attendance** shall be maintained at 90% by all students. (Attending classes regularly will help us in lot many ways like Gaining Knowledge, Enriching Interpersonal skills, Appropriate feedback evaluation mechanism and so on.)
9. Payment of fees before the deadline to avoid last minute hassles.

I sincerely appeal to all students and parents to cooperate in the days to come and **create a win – win situation** for both us and the department.

The department is in your hands and wish you all will support in making it grow together.

To reiterate “A small step in the right direction will lead us to better results”

Wish you all a very Happy and a Prosperous New Year 2024.

HoD
